

## Lecture 1: Adding objects in schema builder:

In this lecture we will know about schema builder and how to add objects in schema builder.

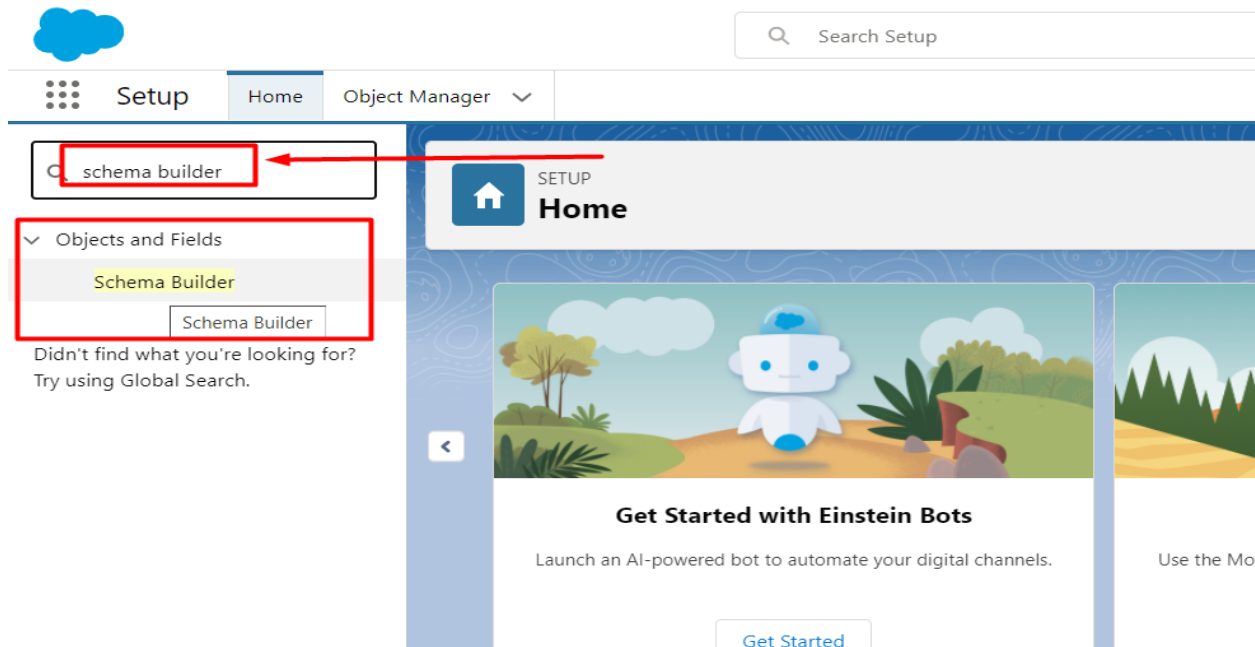

**Step 1:** As we know that in salesforce we have two types of objects, standard objects and custom objects and in order to view those objects we have to click on the object manager tab available on the home page.

The screenshot shows the Salesforce Object Manager page. At the top, there is a search bar labeled "Search Setup". Below it, the navigation bar includes "Setup", "Home", and "Object Manager" (highlighted with a red box and an arrow). The main header area displays the "Object Manager" title and "51+ Items, Sorted by Label". Below this is a table listing various objects.

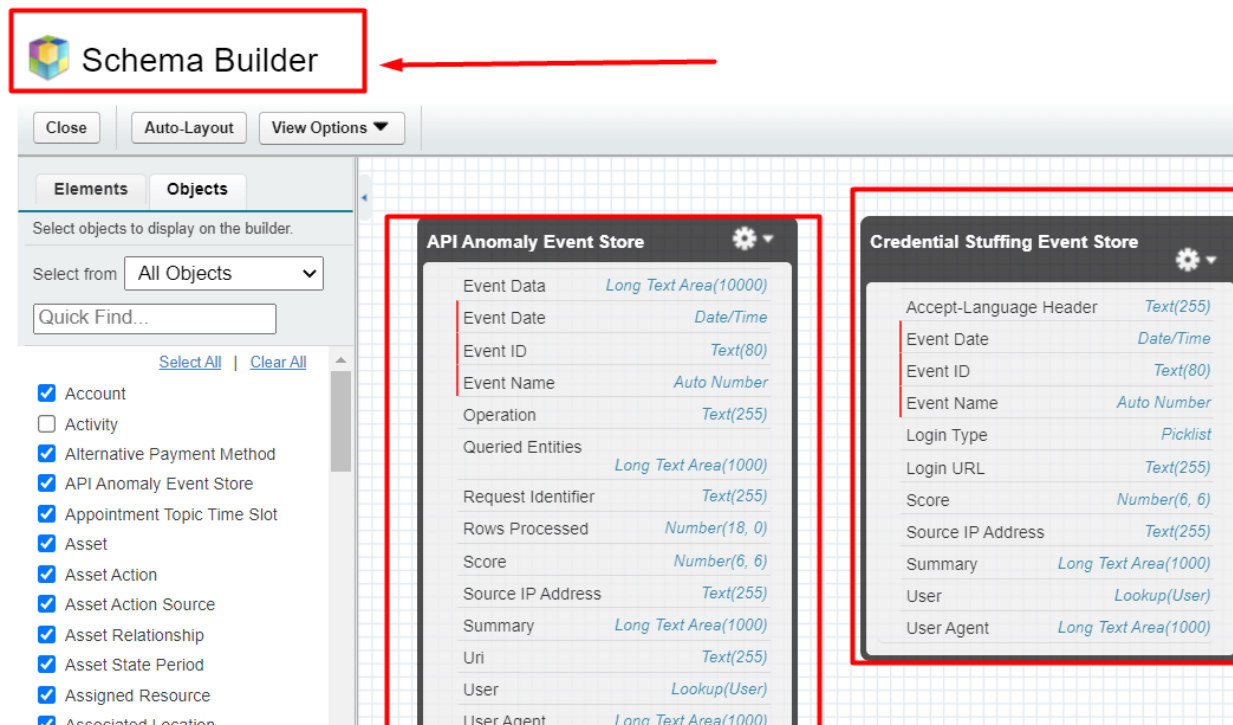

LABEL	API NAME	TYPE
Account	Account	Standard Object
Activity	Activity	Standard Object
Alternative Payment Method	AlternativePaymentMethod	Standard Object
API Anomaly Event Store	ApiAnomalyEventStore	Standard Object
Appointment Topic Time Slot	AppointmentTopicTimeSlot	Standard Object
Asset	Asset	Standard Object
Asset Action	AssetAction	Standard Object

**Step 2:** If you want to view object relationships with the help of pictorial representation salesforce provides a feature for that named schema builder. You can search schema builder in the quick find tab and click on it to open.

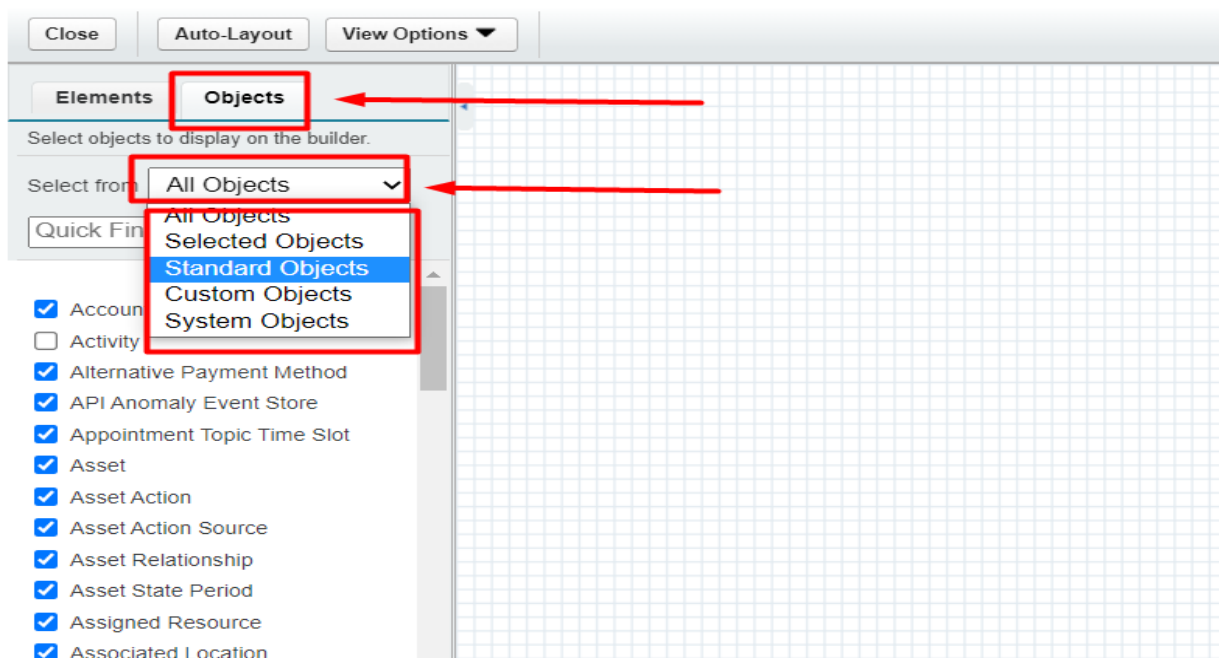

The screenshot shows the Salesforce Quick Find search results for "schema builder". The search bar at the top contains "schema builder". Below the search bar, the results are categorized under "Objects and Fields". The "Schema Builder" option is highlighted with a red box and an arrow. Below the search results, there is a message: "Didn't find what you're looking for? Try using Global Search." The main content area shows the "Home" page with a banner for "Get Started with Einstein Bots" and a "Get Started" button.

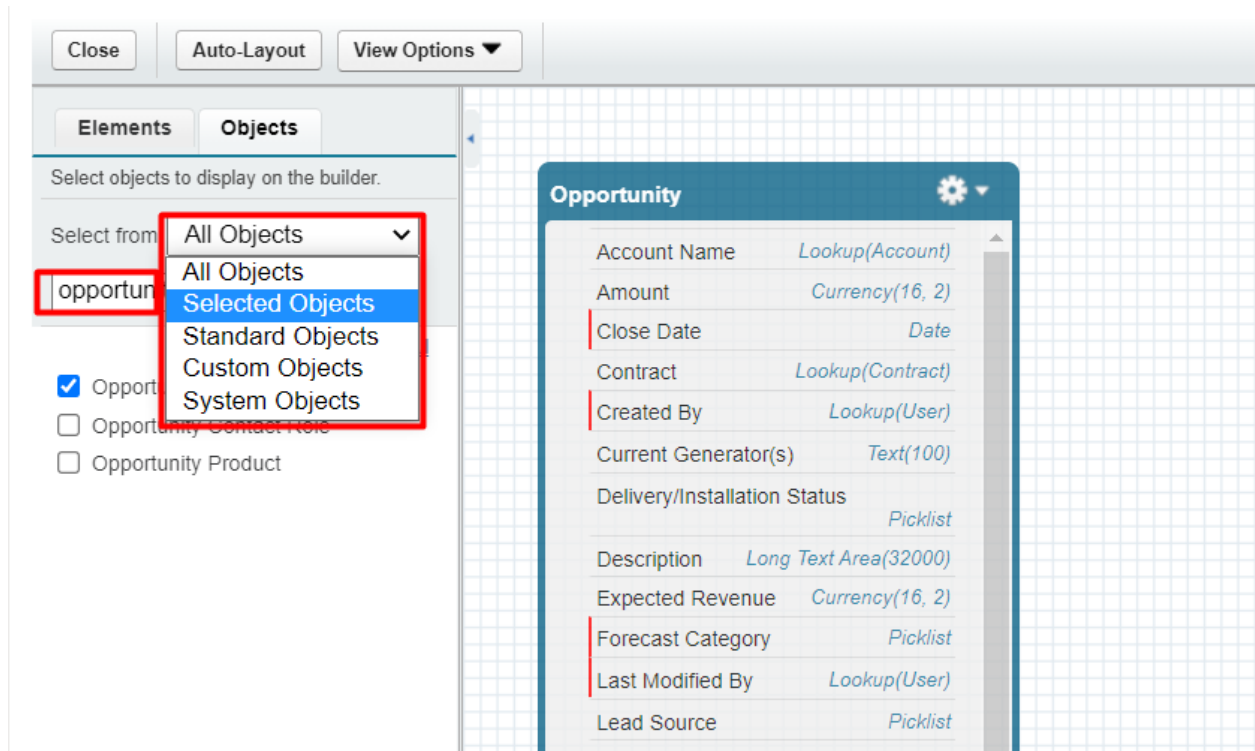

**Step 3:** As you click on it you will be directed to the next page where you will be able to see objects in the form of pictorial representation.

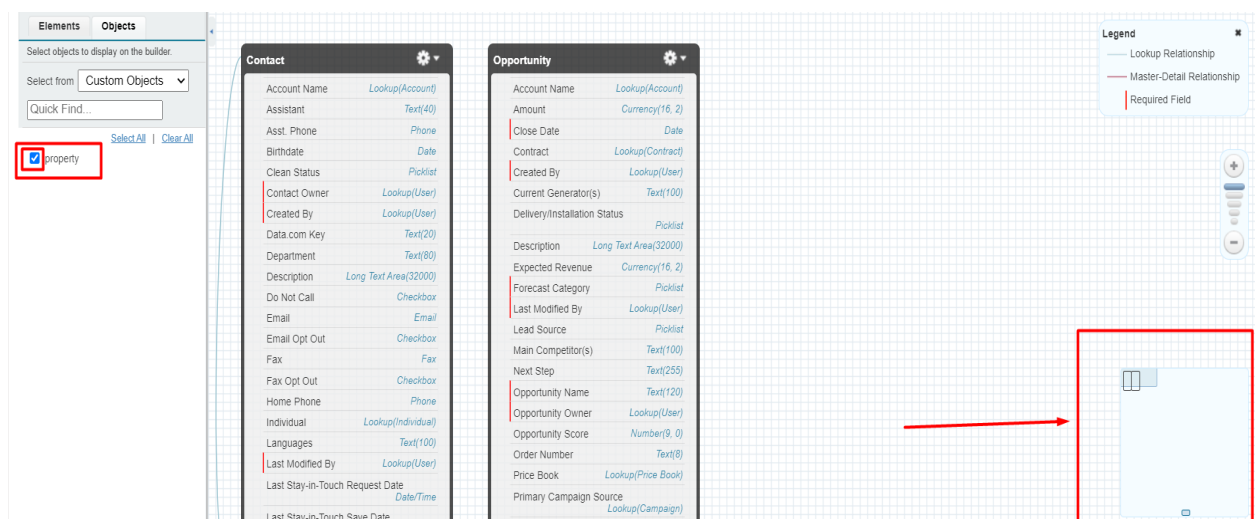

**Step 4:** on this page you can see the zoom in and zoom out buttons on the right hand side of the screen. Also you can just click drag and drop in order to arrange these objects. If you want to add more objects you have to click on the objects button available on the left side and select on the type of object you want to add.

**Step 5:** As you click on selected objects it will show you the objects which are already selected similarly if you click on standard object or custom object it will show you the list of it and you can also search for any object.

**Step 6:** As you search for the object you want and click on the checkbox you will see it appears on the bottom of the screen.

**Step 7:** Now if you click on auto layout you will see that the objects are arranged automatically. you can also arrange them by click hold drag and drop.

The screenshot shows the 'Schema Builder' application. At the top, there is a header bar with a 'Close' button, an 'Auto-Layout' button (highlighted with a red box and a red arrow), and a 'View Options' dropdown. Below the header, there are two tabs: 'Elements' and 'Objects'. The 'Objects' tab is selected, and it contains a 'Select objects to display on the builder.' section. This section has a 'Select from' dropdown set to 'Custom Objects', a 'Quick Find...' search box, and links for 'Select All' and 'Clear All'. A checkbox labeled 'property' is checked. The main workspace displays two object panels: 'Contact' and 'Opportunity'. The 'Contact' panel lists fields such as 'Account Name' (Lookup(Account)), 'Assistant' (Text(40)), 'Asst. Phone' (Phone), 'Birthdate' (Date), 'Clean Status' (Picklist), 'Contact Owner' (Lookup(User)), 'Created By' (Lookup(User)), 'Data.com Key' (Text(20)), 'Department' (Text(80)), 'Description' (Long Text Area(32000)), 'Do Not Call' (Checkbox), and 'Email' (Email). The 'Opportunity' panel lists fields such as 'Account Name', 'Amount', 'Close Date', 'Contract', 'Created By', 'Current Generator(s)', 'Delivery/Installation', 'Description', 'Expected Revenue', 'Forecast Category', and 'Last Modified By'.
